

Rocagres®
BEAUTIFY YOUR SPACE

Tiles That
speak luxury.

www.rocagresurfaces.com

ABOUT ROCAGRES

Inexhaustible range, impeccable design, miniscule details and formidable technology infused products are always in priority for people. At Rocagres, we have thus accumulated 7 major tile product types that stand the test of time. From basic ceramic tiles to porcelain to steps and risers - we have made it all. Added to that our 4 varying texture or surface types meet the different requirements of application and usage. Going further, we have been acutely aware that different sizes work on different spaces and application requirements. So we have the smallest of 20x30mm to largest 'Big Slab' sizes covering 13 variations! And to total it all up, Rocagres means "rock solid" in Spanish which goes on for our commitment to you too!

VISION:

Rock solid emphasis on the creation of a company that offers globally astute products at an internationally benchmarked quality.

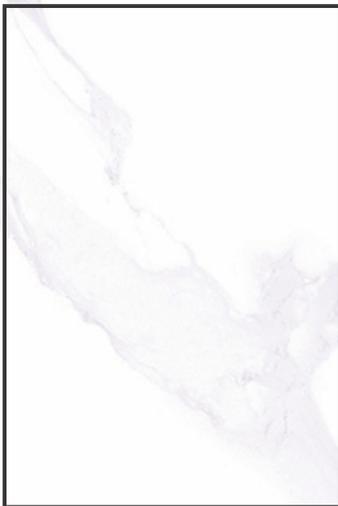

MISSION:

Integrate experience, knowledge, understanding, craftsmanship and technology into the products to achieve optimal excellence.

VALUES:

Impactful employment, quality assurance and eco-conscious sustenance are the values we enshrine within our organisation for a better future.
